

Space to Think.

Space to Think

**Space to dream. Space to listen. Space to unwind. Space to learn. Space to be. Spacesaver® Corporation.
Making space for everything for 40 years.**

Spacesaver mobile storage systems and library shelving solutions make it possible to do more with existing space. Whether it's print, digital or re-purposing, Spacesaver library storage solutions provide a variety of options to maximize space while providing the best storage solutions. Ever.

At Spacesaver we recognize the importance of providing the best library storage solutions that preserve and protect a variety of media. The flexibility to accommodate virtually any type of filing system, cabinet or rack and the development of numerous product innovations designed to provide user safety and to enhance collection preservation have made Spacesaver the leading manufacturer of library shelving and library display systems.

LIBRARY | MOBILE STORAGE SOLUTIONS

Regardless of their size, weight or shape, virtually any type and variety of materials can be stored using a Spacesaver mobile storage system. Not only that, they can be stored in less floor space, reducing your building lease and construction costs.

To help eliminate non-productive space created by fixed aisles, the shelving and cabinets of mobile systems are mounted on wheeled carriages that travel on rails. To initiate carriage movement, three basic modes of operation are available – manual, mechanically assisted, and powered.

Powered Mobile Storage

Mechanical Assist Mobile Storage

Manual Mobile Storage

Off-Site Mobile Storage

LIBRARY | MOBILE STORAGE SOLUTIONS

POWERED: Users open system aisles with a simple push of a button. Provides state-of-the-art technology and safety for users and maximum storage densities. Ideal for high-access applications where maximum reliability, security and protection of stored materials are key concerns.

MECHANICAL ASSIST: Users open system aisles by rotating ergonomic drive handles. Basic safety systems are available. Ideal for medium-sized storage systems with higher activity levels, heavier load factors, greater carriage lengths and a larger number of system ranges.

MANUAL: Users open system aisles by pushing handles left or right. Ideal for smaller, low-activity, limited-access storage areas.

LIBRARY | 4-POST AND DOUBLE- WALL SHELVING SOLUTIONS

Designed to adapt to both stationary and mobile storage applications, Spacesaver 4-Post and case-type shelving (also known as double-wall shelving) offer you a comprehensive choice of options. To enhance their functional utility, individual shelving units can be equipped with lockable doors, storage and file drawers, bins and pull-out reference shelves, as well as a broad array of storage accessories, accommodating a wide array of media formats.

LIBRARY | 4-POST AND DOUBLE-WALL SHELVING SOLUTIONS

Spacesaver 4-post and case-type shelving systems are engineered for stability, strength and rugged functionality. For added structural rigidity, shelves are fabricated using cold-rolled steel and used with welded-steel uprights, enabling the systems to support greater loads.

Easily assembled, disassembled and reassembled, Spacesaver shelving systems are designed for convenient reconfiguration, relocation or expansion as your storage needs change.

LIBRARY | CANTILEVER SHELVING STORAGE SOLUTIONS

Today you not only need to shelve media, but also display and merchandise it. We are continually expanding our line of specialty shelves and accessories to keep up with the demands of today – and tomorrow. Designed for both static and mobile configurations, you can achieve maximum capacity no matter how you arrange your library.

LIBRARY | CANTILEVER SHELVING STORAGE SOLUTIONS

Designed to adapt to both stationary and mobile storage applications, Spacesaver cantilever shelving (also known as bookstack) offers a comprehensive range of options and storage accessories to meet your specific needs and accommodate a wide array of media formats. Easily assembled, disassembled and reassembled, cantilever shelving systems are designed to conveniently reconfigure, relocate or expand as your storage needs change.

LIBRARY | OFF-SITE STORAGE SOLUTIONS

Libraries of all types across campus are space-starved organizations under growing pressure to find new ways to get more use and profit out of less and less space. One obvious answer: Transform precious on-site space for purposes other than storage by archiving materials off-site. Designed specifically for high-density off-site storage, the XTend® system from Spacesaver is the industry's very first mobile high-bay storage system. It combines proven, best-in-class compact storage technology with well-established industrial-grade storage design concepts.

Stationary High-Bay Shelving

LIBRARY | OFF-SITE STORAGE SOLUTIONS

Archiving little-used materials off-site gives you more usable on-site space. With an XTend® system you are assured that your rare or valuable materials are safely archived and thoroughly protected.

LIBRARY | RE-PURPOSING STORAGE SOLUTIONS

Long gone are the days when the main purpose of a library was to store the books and media for the community to borrow. Today, libraries are more popular than ever being used by a wide variety of patrons with varying needs. Patrons will now find in libraries computer labs with access to the Internet, employment services, entrepreneurial incubators, meeting/conference/workshop spaces, lounges, and even coffee cafes. Some of this library re-purposing is reactive, but much of it is pro-active. Libraries realize that they must re-purpose to maintain and grow patronage.

Spacesaver Advantage

By mounting storage units on wheeled carriages that run on tracks, Spacesaver systems eliminate the need for fixed aisle space. You simply push a button on our powered systems or turn the handle on our manual ones to open an aisle where you want it. The result is 100% greater storage capacity or 50% space reduction.

LIBRARY | RE-PURPOSING STORAGE SOLUTIONS

Want to decrease current storage footprint by 50%, freeing up space for renovation?

Try High-density mobile storage with powered, mechanical assisted or manual options.

Interested in a reading room hosting a variety of print materials and other media?

Cantilever shelving with customizable design options such as a wide array of colors and end panel materials and finishes to complement and match any décor.

Looking for a reference and customer service area, teen center for reading, games and hanging out or Computer Lab?

4-post and case-type shelving available with an endless palette of color choices and workspace, counter top and end panel materials such as granite, marble and wood laminate and frosted acrylic.

LIBRARY | UNIQUE STORAGE SOLUTIONS

Spacesaver has a variety of options for any unique storage needs.

Divider rods to store laptop computers: Laptop storage made simple and secure with Spacesaver divider rods and four post shelving. Everything has a place and everything in its place, neat and tidy.

WRX Wheels® Transport System to store books: WRX Wheels storage solution paired with Cantilever shelving provides book storage that is sturdy, function and mobile. Endless configuration possibilities make it a cinch to revamp space.

Manual mobile storage systems as a retail store: Instant showroom or retail shop can be a reality with Spacesaver Manual Mobile storage systems. Fully customizable systems allow for retail product display and inventory storage as well as point of sale hosting. Quickly opens to unveil your store. Closes easily to wrap up the day and provide security when you're not there.

Unique cantilever shelving solutions: Love books and want to make your favorite collections a focal point? Try Cantilever shelving paired with a little creativity for a unique storage experience.

Perforated shelving to allow your rare and archival materials to breathe: Spacesaver provides storage solutions for the most rare objects and archival materials. Perforated shelving allows for better air circulation and longevity of your collection.
