SHELVING SYSTEMS

RaptorRAC™

W I D E S P A N S H E L V I N G

Spacesaver's rugged and versatile wide span shelving provides a perfect platform for storing countless items. Whether it's parachutes on a military base, evidence in a police station, stock in an industrial warehouse, or large artifacts in a museum setting, RaptorRAC™ shelving offers a sturdy way to protect the stuff that's important. It is designed to work great both in static applications as well as integrate with Spacesaver's wide range of industry-leading mobile systems. The wide range size of options of RaptorRAC wide span shelving can easily be configured to optimally store items of all shapes and sizes.

FEATURES & BENEFITS:

- Shelving is constructed from heavy-duty 14-gauge steel
- Available in choice of all-welded or knocked down uprights in a number of standard depths and heights
- Choice of low-profile, standard duty, and heavy duty beams; "Z" beam shape of beams provide increased strength and load capacity
- Several durable choices for decking, including solid steel, particle board, ribbed steel, heavy-duty waterfall wire, and light-duty flat wire to suit a variety of applications
- Uprights, beams, and decking available in a variety of configured heights, widths, and depths
- Mezzanine, floor, and wall anchors available for added stability
- Available in 30 powder coat paint colors; colors are the same as those on Spacesaver's mobile and shelving product lines
- All shelving products are made in Spacesaver's Fort Atkinson plant, which means orders for mobile and shelving ship together
- All products are available on Spacesaver's long list of contracts

Built to last. Infinite possibilities.
