

# GANTNER RELAXX SMART LOCKER SOFTWARE

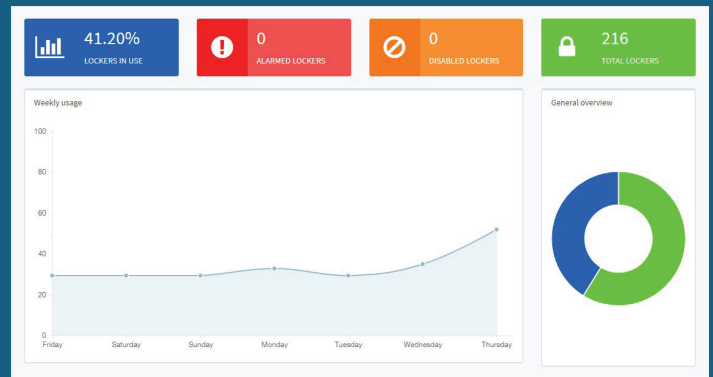

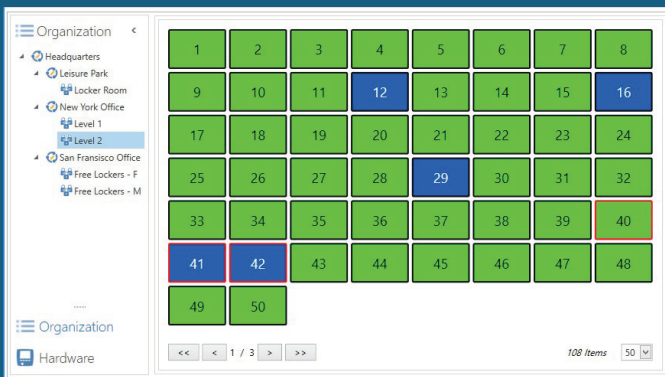

## SMART LOCKERS FOR A FLEXIBLE ENVIRONMENT.

One of the largest telecom companies in Estonia needed their new headquarters to be flexible for staff in an office without personal workspaces. GANTNER's integrated Relaxx software gave the client the convenience, reliability, and safety they were looking for in a suitable locker system.

GANTNER's easy-to-use system made it the perfect choice for the company, minimizing maintenance, budget and learning-curve for staff. Nearly 1,000 lockers were installed and secured through the company's administration system, giving them all the tools and control they needed to organize their lockers.
