Transforming Usable Space & Capability™
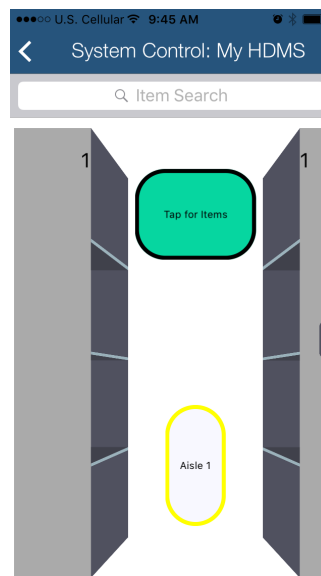

INFO **SHEET**

TUSC™ CONTROL APP

Control your powered mobile systems from your iOS or Android smartphone or tablet. The **TUSC™ Control** app turns your smartphone or tablet into remote control for your powered mobile storage systems. You can open and close aisles, enter and search for items, and see the system's safety status.
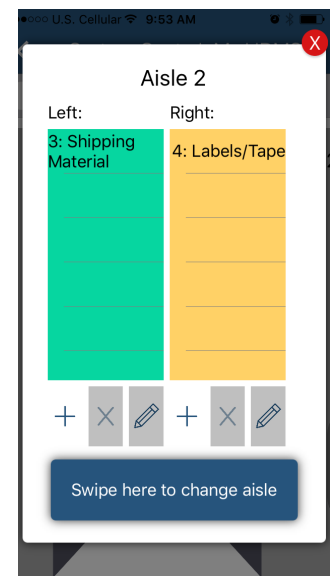

TUSC™ CONTROL APP

- App can be installed on phones or tablets with either iOS or Android operating systems
- Patent-pending technology
- Open and close aisles from up to 100 feet away
- Automatically displays the number of carriages and open aisle(s)
- Simple color coded system status: Red, Yellow, Green
  - » Red= Safety is activated, check for obstruction
  - » Yellow= Aisle is locked, check aisle and press reset if clear
  - » Green= System is ready for use
- Option to reset locked aisles
- Option to lock out system movement by other users when app is in use
- Item Locator:
  - » The item listing is a simple searchable text listing of items that are stored on the left and right side of each aisle.
  - » Item list files can be shared with other users of the TUSC™ Control app
