

Pulsar RFID Electronic Lock 3786

Product Description

Pulsar RFID electronic kit lock provides contactless RFID locking in a slim and attractive footprint.

Utilizing the high strength benefits of the synthetic material Grivory, Pulsar can be used independently or paired with existing wireless systems and comes with a wide range of accessories and options.

Unique to all our electronic kit locks, you can use the steel override key to bypass the contactless lock feature when immediate supervisory access is necessary.

Typical applications include commercial and office environments, **Lockers** and **Enclosures**.

For further information **download the brochure, email** or contact us on **+1 (616) 994 0490**.

User, Programming and Installation instructions can be found on our **Downloads** page.
